Entrepreneurs Programme

Dear family

We are pleased to inform you that our school is launching the **Young Innovators and Entrepreneurs Programme** for students of Grades 6 to 12. The programme aims to build entrepreneurial skills among students by encouraging them to think creatively and develop innovative ideas.

We request parents to guide and support their wards in identifying a real-life problem or a new idea that can be converted into a business opportunity.

The below given QR code will direct to a google form with the idea submission template.

The completed template must be submitted when the students return on **8th September 2025**. Your wholehearted support is essential to make this programme a success.

For further assistance you may contact;

Grades 6&7- Mr. Shahsad - Ph. 8281782788

Grades 8&9- Ms. Dhanya- Ph. 9847969503

Dr. Anas

Principal
